

I just wanted to let you all know how important K-Love is to our community. It provides us with good family Christian music and that is very important for our children. Since K-Love is supported by its listeners it should not be affected by this LPFM. If K-Love were to be replaced we could probably still get Christian radio but it would have a bunch of preaching which none of us like to listen to all the time. K-Love reaches people across the world and in my community and provides 24hr a day pastoral help when needed and they go to prayer for anyone who request it four times a day. Please do not replace my K-Love station.
